Experience

Founder/Product Designer (IDKY Apps)

Recife, Brazil, Jul 2019 - Jul 2020

. IDKY is a startup I created to organize all of my personal projects of apps, being them all from the education category. I worked on the development from scratch of five applications aimed at teaching languages.
. On these projects, I was responsible for all of the research and design work, producing the app flow, identity, visual components and animations.

UX/UI Designer (Apple Developer Academy)

Recife, Brazil, Jan 2018 - Dec 2019

. At the Academy, I had a hands-on multidisciplinary learning experience, building 9 apps from scratch for all Apple platforms.
. The products were built based on market analysis, with agile methodologies and HCD research and prototyping.
. Roles I played include: UX/UI designer, product designer, iOS developer, product manager, product owner and project manager.

Summer Intern (Cesar, Innovation Institute)

Jan 2019 - Feb 2019

. My team created an intelligent system to identify and analyze variations in a chocolate line production, providing smart feedbacks on machine parameters.

Education

Bachelor Design (Federal University of Pernambuco)

Recife, Brazil, Mar 2017 - Dec 2021 (Expected)

M.Sc. Design (Federal University of Pernambuco)

Recife, Brazil, Ago 2018 - Nov 2020

. My research dealt mainly with issues of art and everyday life, starting from a proposal of correspondence between the works of the French thinker Fernand Deligny with children with autistic spectrum syndromes.

Bachelor Cinema (Federal University of Pernambuco)

Recife, Brazil, Mar 2013 - Dec 2016
